Ping (command)

Dmitriy Eshenko - 2019-10-01 - 0 Comments - in CLI Reference

The `ping` command allows you to send an ICMP-EchoRequest packet and display the ICMP-EchoReply received.

Syntax

```
vyos@vyos-rtr:~$ ping <hostname>  
vyos@vyos-rtr:~$ ping <ip address>  
vyos@vyos-rtr:~$ ping <ipv6 address>
```
