Telnet (command)

Dmitriy Eshenko - 2019-09-19 - 0 Comments - in General

The telnet command allows you to connect remotely to another device using the telnet protocol.

Syntax

```
vyos@vyos-rtr:~$ telnet <hostname>  
vyos@vyos-rtr:~$ telnet <x.x.x.x>  
vyos@vyos-rtr:~$ telnet <x:x:x:x:x:x:x>
```
